DEBBIE MILLER'S DEBUT ALBUM, *FAKE LOVE*, TO BE RELEASED AT THE LIVING ROOM ON 5.10.10

New York, NY 4/18/10 – Singer/songwriter Debbie Miller will be releasing her debut album, *Fake Love*, at NYC's famed venue The Living Room on May 10, 2010 at 8pm. The album, recorded at Sound Slope Studios in Brooklyn, showcases both the playful and serious sides of Debbie's songwriting.

Fake Love is the final product of a year-long collaboration between Debbie and Brooklyn-based producer Greg Coladarci. Captured by her unique blend of humor and heart wrenching honesty, he approached her to record the song "Tippy Toe" (a song about subtly slipping into the subconscious of a crush) upon hearing it at an open mic in Brooklyn. What began as a one-song project quickly changed course and developed into a full-length album.

Over the past few years, Debbie has been making a name for herself on the independent musician scene in NYC, playing at reputable venues such as Rockwood Music Hall, The Living Room/Googie's Lounge, Caffè Vivaldi, and numerous others. Classically trained on the piano, Debbie taught herself how to play the guitar in college. With strong influences coming from the folk and indie genres, Debbie has developed her own unique sense of songwriting. Whether she is singing a quirky tune with social commentary, a song about heartbreak, or serenading you with bathroom graffiti, her wide range of ability to reach audiences on many different levels is apparent.

"Balancing playful innocence and savage truth is a feat few artists can pull off, but Debbie makes it seem easy," says Jessi Roberston of Local Correspondents (<http://localcorrespondents.com>) "So whether she is making me smile with a light-hearted song or battering down my defenses with her brave honesty, I fully enjoy every moment of a Debbie Miller performance."

Debbie celebrates the release of her debut work with a full band show on May 10, 2010 at 8pm at The Living Room (www.livingroomny.com). *Fake Love* will be available on iTunes, CD Baby, Lala and Rhapsody.

"Her music - although hard to classify into just one genre - is awesomely quirky, catchy, and tends to blend innocent-sounding melodies with sometimes not-so-innocent lyrics... Just listen, she's really good." – Radio Free Astoria
